

PL-900T00: Microsoft Power Platform Fundamentals

Duration: 2 Days

Method: Instructor-Led Training (ILT) | Live Online Training

*Certification: Microsoft Certified: Power Platform Fundamentals —
Exam: PL-900 Microsoft Power Platform Fundamentals*

Course Description

In this course, participants will learn about the business value and product capabilities of the Power Platform. They will create a simple PowerApp, connect data with Common Data Service (CDS), build a Power BI® Dashboard, and automate a process with Microsoft® Flow.

Target Audience

This course is intended for:

- Users who aspire to improve productivity by automating business processes, analyse data to produce business insights, and act more effectively by creating simple app experiences.

Prerequisites

To attend this course, candidates must have:

- General computer skills.

Course Objectives

Upon successful completion of this course, attendees will be able to:

- Describe the Power Platform components:
 - Power Apps®
 - Power BI
 - Microsoft Automate
 - Common Data Service (CDS)
 - Connectors
 - AI Builder.
- Describe cross-cloud scenarios across Microsoft 365 (M365), Dynamics 365, Microsoft Azure® and 3rd party services.
- Identify the benefits and capabilities of the Power Platform.
- Identify the basic functionality and business value of the components in the Power Platform.
- Implement simple solutions with Microsoft Automate, Power BI, and Power Apps.
