

# MD-100T01: Installing Windows® 10

Duration: 1 Day

Method: Instructor-Led Training (ILT)

---

*Certification: Microsoft® 365 Certified: Modern Desktop Administrator Associate — Exam 1 of 2: MD-100 Windows 10*

---

## Course Description

In this course, participants will learn how to support the installation tasks associated with Windows 10. They will develop skills such as learning how to install and customize Windows 10 operating systems. They will also learn about the new Windows servicing model and methods for keeping Windows up to date. The course will conclude with common post-installation tasks.

## Target Audience

This course is intended for:

- IT Professionals who perform installation, configuration, general local management and maintenance of Windows 10 core services, and may also be familiar with enterprise scenarios and cloud-integrated services.

## Prerequisites

To attend this course, candidates must have:

- Basic understanding of computer networks and hardware concepts.
- Basic understanding of OS and Application concepts.
- Experience with using the Windows OS.

## Course Objectives

Upon successful completion of this course, attendees will be able to:

- Prepare to install Windows 10.
- Install Windows 10.
- Configure Updates for Windows.
- Perform post-installation configuration tasks.
